

Vowel Crosses

- Level:** Grade 1 and up
- Players:** 2
- Skills:** Spelling simple 3 letter words
- Equipment:** 1 x 30 alphabet dice
1 x game board (per player)

Getting Started:

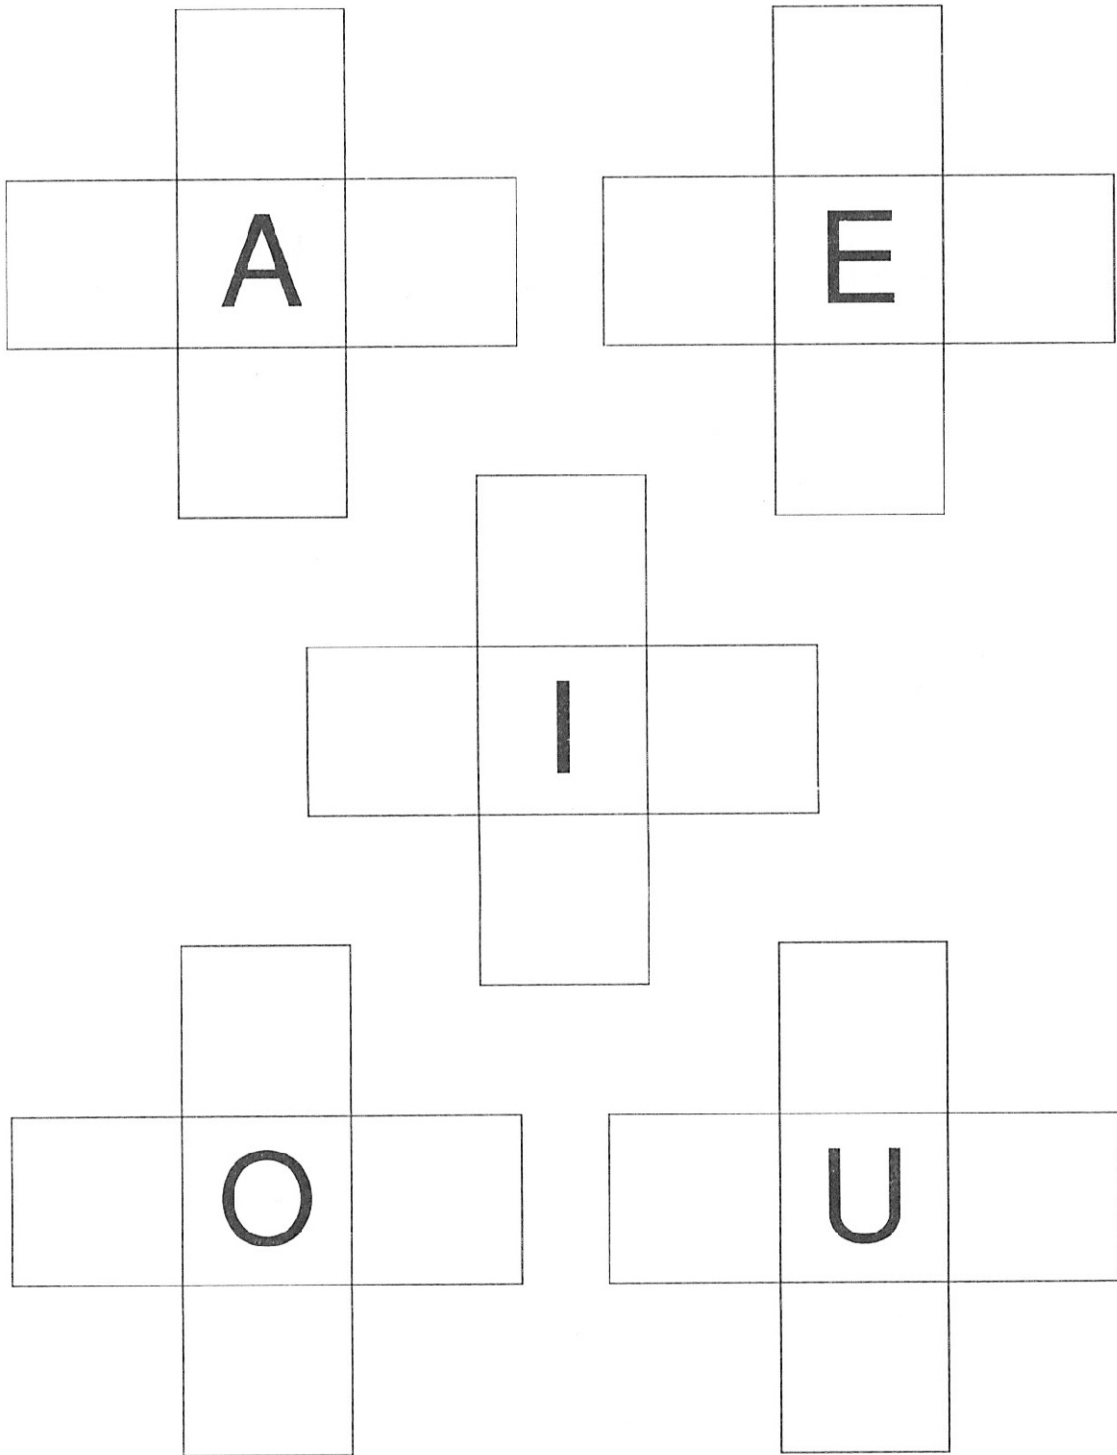

The goal of the game is for players to fill in their game board with as many correctly spelled words as possible. Players alternate rolling the die and calling the letters out loud. If a player rolls a ★ they may choose a letter of their choice.

A total of 30 rolls will be taken during the game. Throughout the rolling players may place the letters into any space on their game board. Any roll may be rejected by either player and placed into the reject spaces. Once a letter is placed it cannot be erased or changed. After 30 rolls are completed players count up the numbers of correctly spelled three-letter words. The player with the most correctly spelled words is the winner.

Variation:

To increase the difficulty players may alter the game board to include various double vowel combinations.
